

KLOVE radio station is very important to my family and I. I receive wonderful uplifting, family friendly entertainment as well as news both national and world wide. If I didn't have KLOVE to listen to I would turn off the radio all together because there is no station available for both my children and myself to listen to without bad language or sexual content. I think it is important to offer your listeners a variety so they can as parents choose what their children are exposed to. Instead of hearing "GIVE IT TO ME BABY", they're hearing they are valuable, able to do all things, and that they are loved. Which would you prefer your children hear? Please, please, do not displace KLOVE with LPFM broadcasters.
